

IMPLEMENTING WEB APPLICATION

Create UI To Interact With Application:

The image shows a web page titled "SignIn Page" with a light blue background. It features two input fields: "Email" and "Password", both with white backgrounds and thin black borders. Below the "Password" field is a "Submit" button with a light gray background and a thin black border. The text "SignIn Page" is centered at the top in a large, bold, black serif font.

The image shows a web browser window displaying a "User Registration Form". The browser's address bar shows the URL "127.0.0.1:5500/registration.html". The form has a yellow background and is titled "User Registration Form" in bold black text. It contains several input fields: "Name:", "Email:", "Mobile:", "Pincode:", "City:", and "State:". The "Pincode:" and "City:" fields are adjacent, and the "State:" field is below them. A "Submit" button is centered at the bottom of the form.
