

Assignment-3

Team id	PNT2022TMID26431
PROJECT NAME	PERSONAL EXPENSE TRACKER APPLICATION
NAME	SELVAM M
ROLL NO	211719104123

1.Create User table with user with email, username, roll number, password.

```
CREATE TABLE user(email varchar(50) not null, username
                    varchar(20) not null, roll_number int
                    not null, password varchar(20) not
                    null)
```

```
INSERT INTO user(email, username, roll_number, password)
```

```
VALUES('selvam@gmail.com','selvam10','01122','selvam')
```

2.Perform UPDATE,DELETE Queries with user table

```
UPDATE user SET username='selvam' WHERE email= 'velvam@gmail.com'
```

```
DELETE FROM user WHERE username = 'selvam'
```

3.Connect python code to db2.

```
conn = ibm_db.connect("DATABASE=bludb;HOSTNAME=54a2f15b-5c0f-46df-
8954-
7e38e612c2bd.c1ogj3sd0tgtu0lqde00.databases.appdomain.cloud;PORT=32733;Secur
ity=SSL;SSLServerCertificate=DigiCertGlobalRootCA.crt;UID=hgm40493;PWD=M
yVIfYf5WrLQF6tG;",",")
```

4. Create a flask app with registration page, login page and welcome page. By default load the registration page once the user enters all the fields store the data in database and navigate to login page authenticate user username and password. If the user is valid show the welcome page.

login.html

```
<html>

    <head>

        <meta charset="UTF-8">

        <title> Login </title>

        <link rel="stylesheet" href="{{ url_for('static', filename='style.css') }}">

    </head>

    <body></br></br></br></br></br>

        <div align="center">

            <div align="center" class="border">

                <div class="header">

                    <h1 class="word">Login</h1>

                </div></br></br></br>

                <h2 class="word">

                    <form action="{{ url_for('login') }}" method="post">

                        <div class="msg">{{ msg }}</div>

                        <input id="username" name="username" type="text" placeholder="Enter Your Username" class="textbox"/></br></br>

                            <input id="password" name="password"
type="password" placeholder="Enter Your Password" class="textbox"/></br></br></br>

                            <input type="submit" class="btn" value="Sign
In"></br></br>

                    </form>
```

```

        </h2>

        <p class="bottom">Don't have an account? <a class="bottom"
